Teachers Module

1. Log in with a valid teacher ID and the correct password.
2. I want to be able to log in with my valid teacher ID and the correct password.
3. Try logging in with invalid teacher ID and correct password.
4. I will try to log in with an invalid teacher ID and the correct password. I expect the system to deny access.
5. Try logging in with a valid teacher ID and incorrect password.
6. I want to try logging in with my valid teacher ID and the wrong password. I expect the system to deny access.
7. As a teacher, I want to be able to select students to view their information.
8. I would like to confirm that the details of the student are displayed accurately.
9. I want to be able to navigate through multiple screens and confirm that all buttons are clickable and responsive.
10. I want to be able to navigate through multiple screens and confirm that all buttons are clickable and responsive.
11. As a teacher, I want to be able to add new learners to my classroom.
12. I would like to confirm that the student was successfully added to the class list.

Name:

13. As a teacher, I want to be able to select students and try to delete them from my class.
14. I expect the student to be deleted from the class.
15. As a teacher, I want to be able to navigate to student profiles and upload exam results.
16. I want to make sure the results are properly linked to those students.
17. I would like to be able to add extra-curricular activities for each student.
18. I would like to be able to add extra-curricular activities for each student.
19. I want to be able to find students using the search bar.
20. I will use the search bar with inputs that do not match any student.
21. I would like to confirm that the system correctly addresses and displays no results.
22. After performing various actions, I will log out.
23. I want to confirm that the logout function works and the system returns to the login screen.
24. As a teacher, I will update co-curricular activities for a student and confirm that changes are successfully stored and reflected in the student's profile.
25. I would like to confirm that the changes were successfully saved and reflected in the student's profile.

Name:

Students Module

1. I rely on screen readers and other accessibility tools, and I expect text that is on a purple background to be clearly read, ensuring an inclusive experience.
2. Purple backgrounds and styles should enhance, not hinder, usability. Text and important elements should remain clearly visible over an attractive purple background.
3. I would like only students with the correct ID and password to be able to log in.
4. I want students to be able to see their own personal information.
5. I want all buttons to be clickable and work.
6. I would like students to be able to download their own exam results from the student portal.
7. I want a well-structured system screen for smooth navigation.
